SONTARA® EC RANGE

(Designed specifically for general industrial purposes)
Strong performance

Nothing beats Sontara® EC in all-around performance. Wet, dry or in between, Sontara® EC wipes are more versatile than cloth rags, stronger and more durable than paper, and less expensive in use than both. They’re made under strict production controls for consistent quality, size and packaging.

Sontara® technology

Sontara® EC wipes are manufactured in a “spunlacing” process, using needle-like jets of water to “entangle” fibres into one of the finest wiping fabrics ever made. They are made of a tough, durable material that resists abrasion and solvents, contains no binders or glues, is low-linting, and highly absorbent in water, oil and solvents.

Cleaning ability

Sontara® EC wipes are ideal for many applications, including aviation, manufacturing, painting, auto- and machinery repair, printing, graphic arts, and more...
SONTARA® EC IN FLAT BULK

Product code: 2020
Product name: SONTARA® EC – IN FLAT BULK
D 1379 1226
Colour / Material: Turquoise / Creped K947S
Grams/m2 (gsm): 77
Sheet size: 300mm x 300mm
Packaging: 100 wipes / pack
10 pack / carton
18 carton / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC LIGHT IN FLAT BULK

Product code: 2060
Product name: SONTARA® EC LIGHT – IN FLAT BULK
D 1368 3578
Colour / Material: Turquoise / Creped K902S
Grams/m2 (gsm): 53
Sheet size: 300mm x 300mm
Packaging: 200 wipes / pack
6 pack / carton
18 carton / pallet

Sontara® EC Light wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.
SONTARA® EC IN ROLLS
Product code: 2030
Product name: SONTARA® EC – IN ROLLS
D 1365 0828
Colour / Material: Turquoise / Creped K947S
Grams/m² (gsm): 77
Sheet size: 300mm x 380mm
Packaging: 400 wipes / roll
60 rolls / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® EC LIGHT IN ROLLS
Product code: 2070
Product name: SONTARA® EC LIGHT – IN ROLLS
D 1368 3561
Colour / Material: Turquoise / Creped K902S
Grams/m² (gsm): 53
Sheet size: 320mm x 420mm
Packaging: 500 wipes / roll
60 rolls / pallet

Sontara® EC Light wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.
**SONTARA® EC IN POP-UP BOX**

Product code: 2010  
Product name: SONTARA® EC – POP-UP  
D 1379 1230  
Colour / Material: Turquoise / Creped K947S  
Grams/m2 (gsm): 77  
Sheet size: 320mm x 420mm  
Packaging: 250 wipes / carton  
66 cartons / pallet

Sontara® EC wipes are all-purpose, engineered cloths with exceptional absorbency, strength and low-linting properties, well-suited for what is known as critical cleaning.

SONTARA® PRINTCLEAN
(Designed specifically for the printing industry)
High standards

Sontara® PrintClean delivers high cleaning standards for optimal printing quality. The low linting feature of Sontara® PrintClean makes it ideal for all prepress work. Thanks to its solvent resistance, high strength and low linting characteristics, Sontara® PrintClean exceeds in roller, cylinder and blanket cleaning. Perfect balance between solvent absorbency and release.

Strength & absorbency

The strength of Sontara® PrintClean combined with its low lint content and high absorbency of both solvents and viscous liquids is critical for the effective cleaning of printing plates. The high absorbency and outstanding chemical resistance of Sontara® PrintClean make it well suited for the difficult cleaning of ink jet nozzles and the rest of the inking system.

Effective cleaning

The strength and absorbency of Sontara® PrintClean are particularly welcomed for the effective cleaning of printing rolls. The high abrasion resistance and strength of Sontara® PrintClean are strong arguments for its use in cleaning gears, switches and other mechanical parts of the press.
SONTARA® PRINTCLEAN - IN ROLLS

Product code: 2095
Product name: SONTARA® PRINTCLEAN – IN ROLLS
D 1365 0663
Colour / Material: White / Apertured 9982
Grams/m2 (gsm): 80
Sheet size: 325mm x 420mm
Packaging: 500 wipes / roll
36 rolls / pallet

Sontara® PrintClean - middle or fine texture.
This cleaning cloth is suitable for the wider cleaning process from dust and dirt. This multipurpose cleaning cloth is especially useful when cleaning with solvent or water if necessary, as this cloth is highly absorbent and untearable. This cloth is available as rolls or in boxes. Solvent resistant.

FSC PEFC Strong Absorbent Low-linting Solvent-resistant Saves money
SONTARA® SPS RANGE
(Designed specifically for surface preparation & automotive industry)
Technology for professionals

Sontara® Surface Preparation System (SPS) cloths are made of an exclusive nonwoven material developed by DuPont™. This unique fabric is the result of an advanced spunlace technology based on a water needling process that uses high pressure jets to form a tight web through hydraulic entanglement of cellulose and polyester fibers. Contrary to many nonwovens, Sontara® does not contain any silicone, binders, fillers or other chemical additives.

High performance

Sontara® SPS cloths are ideal for degreasing because it quickly picks up and holds solvent while its textured side captures and removes contaminants.

Soft fabric

The balanced combination of viscose fibers and Dacron®, gives these wipes excellent softness and bulkiness. Its special nonwoven construction eliminates strings, fraying and lint. The Sontara® SPS range doesn’t contain streak-producing additives and is ideal for overall detailing of chrome, glass and interiors, making it the product of choice for all delicate cleaning jobs in the auto body shop.

Critical cleaning jobs

The Sontara® SPS range is ideal for cleaning between coats and removing dry particles before topcoat application. Using a spunlace technology, the fabric contains very little lint and won’t fray. It’s also very practical when cleaning plastic parts because of its resistance to static build-up. Its formula is super clean, yet remarkably effective. Sontara® simply guarantees that you will have no sticky residue, tack transfer or fingerprints on your finish.
SONTARA® SPS PRIMARY TACK CLOTH - ¼ FOLDED

Product code: 2041
Product name: SONTARA® SPS – PRIMARY TACK
D 1357 8924
Colour / Material: Green / T420
Grams/m² (gsm): 78
Sheet size: 305mm x 457mm
Packaging: 144 wipes / box
12 boxes / carton
45 cartons / pallet

Sontara® Primary Tack Cloth Medium “tackifier” effectively picks up dirt and dust before basecoat while minimizing the potential for tack transfer.

SONTARA® SPS FINAL TACK CLOTH - ¼ FOLDED

Product code: 2042
Product name: SONTARA® SPS – FINAL TACK
D 1362 5948
Colour / Material: Blue / T010
Grams/m² (gsm): 78
Sheet size: 381mm x 432mm
Packaging: 180 wipes / box
48 boxes / pallet

Sontara® Final Tack Cloth Light “tackifier” removes dust and overspray between coats with no fraying or linting which reduces static buildup on plastic parts and other surfaces.

Sontara® Final Tack Cloth Light “tackifier” is proven successful with waterborne paint systems.
SONTARA® SPS POLISH CLOTH - IN ROLLS

- Product code: 2043
- Product name: SONTARA® SPS – POLISH CLOTH – IN ROLLS
- Colour / Material: White / Smooth 9414
- Grams/m² (gsm): 48
- Sheet size: 365mm x 400mm
- Packaging: 275 wipes / roll
- Package: 48 rolls / pallet

An extremely soft cloth for delicate polishing jobs. It is made of a balanced combination of viscose and polyester fibers making it especially fleecy. Its special non-woven construction eliminates strings, fraying and lint. Containing no streak-producing additives, Sontara® Polish Cloth is ideal for the polishing of all chrome, glass and painted or lacquered surfaces.

Applications:
- Manual polishing and buffing
- Recommended for use on external finishes
- Inside cleaning

SONTARA® SPS POLISH CLOTH - ¼ FOLDED

- Product code: 2044
- Product name: SONTARA® SPS - POLISH CLOTH – ¼ FOLDED
- Colour / Material: White / Smooth 9414
- Grams/m² (gsm): 48
- Sheet size: 360mm x 380mm
- Packaging: 420 wipes / box
- Package: 48 boxes / pallet

An extremely soft cloth for delicate polishing jobs. It is made of a balanced combination of viscose and polyester fibers making it especially fleecy. Containing no streak-producing additives, Sontara® Polish Cloth is ideal for the polishing of all chrome, glass and painted or lacquered surfaces.

Applications:
- Manual polishing and buffing
- Recommended for use on external finishes
- Inside cleaning
SONTARA® SPS DEGREASING CLOTH - ¼ FOLDED

Product code: 2040
Product name: SONTARA® SPS DEGREASING CLOTH – ¼ FOLDED
Colour / Material: Turquoise / Creped K9475
Grams/m² (gsm): 77
Sheet size: 325mm x 420mm
Packaging: 200 wipes / box
60 boxes / pallet

When it comes to automotive refinishing, Sontara® Surface Preparation System has a definite performance edge at every stage of the refinishing process. The Sontara® Surface Preparation System is a family of technologically advanced wiping solutions that act as the basis for a perfect finish. Our products are engineered for the specific demands of the automotive refinishing industry. Sontara® Surface Preparation System wipes are clean and manufactured without glues or binders. The low particle content and lack of binding additives help to enhance the quality of your work.

SONTARA® SPS DEGREASING CLOTH – IN ROLLS

Product code: 2045
Product name: SONTARA® SPS DEGREASING CLOTH – IN ROLLS
Colour / Material: Turquoise / Creped K947
Grams/m² (gsm): 77
Sheet size: 325mm x 390mm
Packaging: 500 wipes / roll
60 rolls / pallet

The low particle content and lack of binding additives help to enhance the quality of your work.
SONTARA® MICROPURE RANGE

(Designed specifically for cleanrooms & laboratories)
Reducing contamination

Increasing productivity in cleanroom manufacturing is a challenge. This is especially true when it comes to reducing potential contamination that can cause product defects and associated yield losses. Therefore, choosing an appropriate wipe is critical to product quality and not putting your image at risk.

Sontara® technology

Sontara® MicroPure is a woodpulp/polyester nonwoven fabric. Made with hydroentangling technology, using jets of filtered, high-pressure water, Sontara® fabric is continually “washed” during manufacture. Ideally for cleanroom use since it doesn’t contain binders or require chemical treatment. The high cleanliness and purity are ensured by low extractable level and ion content as well as extremely low particle generation by the material itself.

Fabric features

The fabric offers high particle- and liquid absorbency due to their cellulose content. Unlike many other nonwoven fabrics, Sontara® MicroPure fabrics do offer an ideal combination of cleanliness, absorbency and purity in a single fabric without binders, chemicals or adhesives. Many nonwoven wipe fabrics include binders or additives or are chemically treated on the surface to reduce the particle debris. However, these additives very often reduce absorbency – an important functional property – and, in addition, can cause contamination from the wipes.

SONTARA® MICROPURE AP

Product code: 2110
Product name: SONTARA® MICROPURE AP
D 1362 0543
Colour / Material: White / Smooth 9966
Grams/m² (gsm): 68
Sheet size: 224mm x 224mm
Packaging: 300 wipes / pack
20 pack / box

The Sontara® MicroPure AP is an all-purpose cleanroom wipe made of nonwoven woodpulp/polyester fabric, created by spunlace technology.
· Engineered for cleanroom use
· Absorbency of a natural fiber cloth, plus cleanliness and strength of a synthetic cloth
· No binders or chemical treatments used in manufacturing process
· Low extractable level and ion content
· Low particle generation
· Advanced package design eliminates the need to cut bags in the cleanroom
· Recommended for ISO class 6

SONTARA® MICROPURE AP

Product code: 2111
Product name: SONTARA® MICROPURE AP
D 1365 0646

SONTARA® AC RANGE
(Designed specifically for aerospace)
Clean and low-linting

The Sontara® AC wipes are exceptionally clean – contains no added chemicals or binders, stains or metal shavings. The wipes are manufactured in a unique process that creates a strong, low-linting fabric. They are specially designed to resist snagging and fraying.

Strong and absorbent

The AC range handles isopropyl alcohol, MEK and other tough solvents without falling apart. Despite this, they are durable enough to be laundered, yet economical enough to use as a disposable.

Wide range of applications

Polishing bright work (chrome, high-polish aluminum, etc.)
Maintenance of landing gears and engines
Surface preparation for composite and paint work
Electrical and hydraulic systems assembly
Interior assembly and completion
SONTARA® AW 99
Product code: 2135
Product name: SONTARA® AW 99 – FLAT PACK
D 1366 8200
Colour / Material: White / Apertured K868B
Grams/m² (gsm): 75
Sheet size: 230mm x 230mm
Packaging: 3000 wipes / box
16 boxes / pallet

Sontara® AW 99 are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.

Sontara® aerospace grade wipes, style K868B, meet the following requirements:
• Aerospace Material Specification AMS 3819B, Class 2, Grade A
• Boeing Material Specification BMS 15-5F, Class A
• Bombardier Aerospace
• Cessna Aircraft Company CSFS039
• Douglas Material Specification DMS 1820E
• Pratt & Whitney GA100-11E
• U.S. Air Force T.O. 1-1-8

SONTARA® AC 1212
Product code: 2132
Product name: SONTARA® AC 1212 – FLAT PACK
D 1366 7426
Colour / Material: White / Creped K802
Grams/m² (gsm): 75
Sheet size: 305mm x 305mm
Packaging: 100 wipes / pack
10 packs / case
27 cases / pallet

Sontara® AC 1212 are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.

Sontara® 1212, style K802, meet the following requirements:
• Aerospace Material Specification AMS 3819B, Class 2, Grade A
• Boeing Material Specification BMS 15-5F, Class A
• Bombardier Aerospace
• Cessna Aircraft Company CSFS039
• Douglas Material Specification DMS 1820E
• Pratt & Whitney GA100-11E
• U.S. Air Force T.O. 1-1-8
SONTARA® AC 1213

Product code: 2130
Product name: SONTARA® AC 1213 – ¼ FOLDED
D 1366 8522
Colour / Material: White / Creped K802
Grams/m² (gsm): 75
Sheet size: 305mm x 330mm
Packaging: 500 wipes / box
27 boxes / pallet

Sontara® AC 1213 are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.

Sontara® aerospace grade wipes, style K802, meet the following requirements:
• Aerospace Material Specification AMS 3819B, Class 2, Grade A
• Boeing Material Specification BMS 15-5F, Class A
• Bombardier Aerospace
• Cessna Aircraft Company CSFS039
• Douglas Material Specification DMS 1820E
• Pratt & Whitney GA100-11E
• U.S. Air Force T.O. 1-1-8

SONTARA® AC 1213 WW

Product code: 2134
Product name: SONTARA® AC 1213 WW – ¼ FOLDED
D 1366 8992
Colour / Material: White / Smooth 8426
Grams/m² (gsm): 60
Sheet size: 305mm x 337mm
Packaging: 25 wipes / pack
20 cases / box
27 boxes / pallet

Sontara® AC 1213 WW (Window Wipe) are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.

Sontara® 1213 WW, style 8426, meet the following requirements:
• Aerospace Material Specification AMS 3819B, Class 2, Grade A
• Boeing Material Specification BMS 15-5F, Class A
• Bombardier Aerospace
• Cessna Aircraft Company CSFS039
• Douglas Material Specification DMS 1820E
• Pratt & Whitney GA100-11E
• U.S. Air Force T.O. 1-1-8
**SONTARA® AC 9165**

Product code: 2131  
Product name: SONTARA® AC 9165 – POP-UP  
D 1365 7415  
Colour / Material: White / Creped K802  
Grams/m² (gsm): 75  
Sheet size: 230mm x 420mm  
Packaging: 100 wipes / box  
8 boxes / carton  
16 cartons / pallet  

Sontara® AC 9165 are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively.  

Sontara® aerospace grade wipes, style K802, meet the following requirements:  
- Aerospace Material Specification AMS 3819B, Class 2, Grade A  
- Boeing Material Specification BMS 15-5F, Class A  
- Bombardier Aerospace  
- Cessna Aircraft Company CSFS039

SONTARA® FOOD SERVICE
(Designed specifically for hygiene purposes)
Exceptional performance

The Sontara® Foodservice wipes are specially engineered to meet the needs of the food service industry with features like high absorbency and fast pick-up. These wipes are ideal for all cleaning and drying applications. Just a few of the many places you can find these high-performance wipes hard at work are restaurants, hospitals, offices and hotels.

Great hygiene

If you constantly have to worry about keeping surfaces clean and safe, it’s a relief to know that Sontara® has developed the solution – Foodservice wipes. Ultra-absorbent, these multi-use wipes can soak up seven times their weight in liquid. They also pick up solids faster than standard wipes, and because they are fully approved for contact with food, they are ideal for cleaning appliances and stainless-steel surfaces such as prep tables. But you can also use them for wiping counters, clearing tables and cleaning sinks, faucets or floors. And since Sontara® Foodservice wipes come in five different colors, you can establish a color-coded system to organize the different tasks at hand.

Stronger – Last longer

Wet or dry, Sontara® Foodservice wipes deliver outstanding value because they’re so strong and long-lasting. Over and over, they will clean leaks, streaks and dust, and save more in time, energy and money than traditional multi-purpose wipes. While their tight, dense structure provides strength and tear resistance, they are also incredibly light, and their soft, cotton-like feel makes any clean-up job more pleasant and efficient.
When it comes to the food service industries, clean-up is no easy task. A strong, clean, wiping product with outstanding cleaning abilities is required, and it must be safe and exceptionally absorbent. Sontara® Food Service industry wipes are strong, durable and very absorbent, absorbing 6X its weight in liquid, and they are perfect for soaking up big spills. Plus, they are food-contact approved, making them perfect for this industry.
SONTARA® FOODSERVICE
