parts storage and
long-term preservation***

STORAGE AND PRESERVATION PRODUCTS

At IPS-Group, we have several decades of experience providing products to protect your AOG during long or short term storage. The products we offer carry Aircraft OEM approvals and meet the necessary industry specifications.

SHORT AND LONG TERM CORROSION INHIBITING COMPOUND (CIC/CPC)

High corrosion protection for airframe, engines, landing gear and equipment

WADIS 24/60

- Water / moisture displacement
- For parts not exposed to the elements
- Anti-corrosion / Lubrication properties

SOCOPAC 65H

- Deep penetrating long term anti-corrosion layer
- Displace moisture and build a protective barrier
- Tack free wax film for airframe structures and components

TEMPORARY PROTECTIVE COATINGS (TPC)

For weather and scratch protection in harsh environments

PROPACO SC

- Unpainted and primed airframe
- Long term protection
- Chemical and environmental protection

PROPACO SP3

- Long term livery protection
- Paint gloss retention
- UV protection for paint and composite

COMPLEMENTARY : PRODUCTS FOR CIC/ TPC REMOVAL

Aqueous and solvent degreasers and cleaners

SYNCLAIR AC

- Water based, biodegradable surfactant
- High pressure cleaning
- High efficiency at low concentration

SYNCLAIR A2 GEL

- Water based, thixotropic gel
- Heavy duty cleaner
- Airframe, landing gear and bay...

SOCOCLEAN SHINE

- Solvent free polish
- Gloss restoration
- Dry wash

DIESTONE DLS

- Minimise solvent consumption
- Multi purpose cleaner
- Wipes, aerosol, bulk...

SOCOSOLV A3582

- Solvent based, thixotropic, zero VOC
- Removes TPC, CIC, oil and grease
- Water rinsable, applicable to ALL surfaces
