

Collégien, January 27<sup>th</sup>, 2020

**2019-nCoV coronavirus outbreak**

To whom it may concern,

PSA – Produits Sanitaires Aéronefs, located 1, rue de Lamirault – 77090 Collégien – France thereby declares that:

The product **NETBIOKEM DSAM** is effective against lipophilic viruses, such as Coronavirus.

The product has been tested against the Virucidal Effectiveness European Standard EN14476 against Influenza A (H1N1), a surrogated\* virus for lipophilic viruses.

\* In the context of environmental microbiology and health risk assessment, there are defined surrogates as organisms, particles, or substances used to study the fate of a pathogen in a specific environment.
