

SOCOSURF TCS/SCOP

Bi-component solution

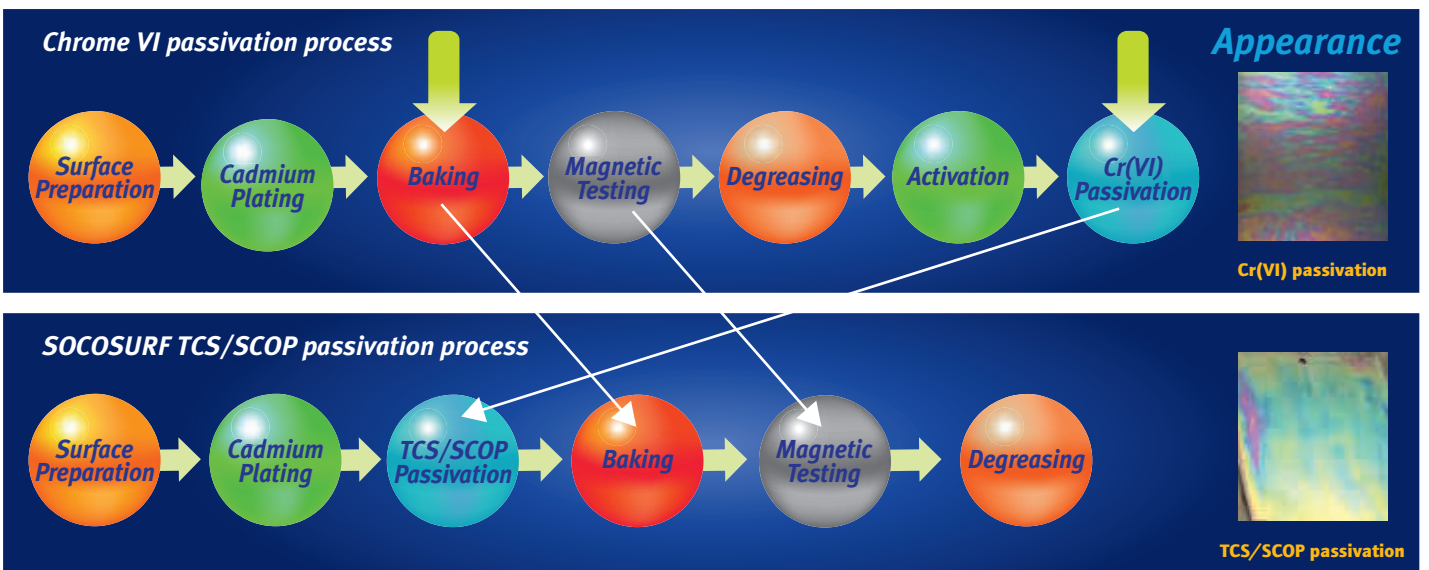

- ✓ Airbus approved
- ✓ Cr(VI) free
- ✓ Dehydrogenation occurs at end of process
- ✓ Saves time, reduces costs & part handling

A Cr(III) based alternative process to Cr(VI) to passivate and colour cadmium plated steel.

*SST: Salt Spray Test

Chrome VI vs SOCOSURF TCS/ SCOP passivation process

Approvals: Airbus (APII 02-04-013). First Cr(VI) free cadmium plated steel passivation solution approved by Airbus.
