

SOCOCLEAN ZERO APC

Eco-friendly, VOC-free, water-based cleaner and degreaser

SOCOCLEAN ZERO APC is a concentrated cleaning product designed for the removal of burned cutting fluids and oils as well as other hard-to-remove residues. **It aims to replace traditional solvents** such as MEK, acetone, IPA and other solvent-based degreasers.

Advantages

SOCOCLEAN ZERO APC improves working conditions and reduces environmental impact:

- ✓ Zero VOC (Volatile Organic Compounds)
- ✓ Zero hazard classification - toxicity and ecotoxicity
- ✓ 94% biodegradable (according to OECD 301A)
- ✓ Zero transport constraints
- ✓ **Suitable for exterior manual cleaning & automatic train wash installations**
- ✓ Rapidly dissolves stains or dirt of mineral, vegetal or animal origin (oil, grease, fresh ink, mould)
- ✓ Pleasant fragrance - suitable for working in confined spaces

Use

SOCOCLEAN ZERO APC is recommended for the **exterior train cleaning** which can be done manually or with automatic wash installations. it is used diluted (from 5 to 20%, depending on soiling level).

SOCOCLEAN ZERO APC can be used **on substrates including stainless steel, aluminum or zinc coated carbon steel** (EXTERIOR CLEANING CLASSES C1 (ALSTOM)).

Packaging

In liquid form: **5 L - 20 L - 210 L**
