

Sacrificial anticorrosion coating

SOCOGLAZE SPC 0980 CF - SOCOGLAZE SPC 0981 CF

Formerly known as MADERBIND CF

Aluminized sacrificial coating

- ✓ Totally chromate Free
- ✓ Waterborne product
- ✓ Low VOC (<60 g/Ltr)
- ✓ Sacrificial function

The **SOCOGLAZE SPC 0980/0981 CF** protects parts from **corrosion** in high temperature environment. It is applicable on steel and other alloys sensitive to galvanic coupling exposed to high temperature : **450-550 °C / 842-1022 °F**. SOCOGLAZE SPC 0980 CF & SOCOGLAZE SPC 0981 CF are both a **one component version**. MADERBIND 2K is a **two components version**.

This SOCOMORE coating system is highly recommended on:

- Rotating / non rotating parts
- Compressor shafts
- Steel blades

Protection for all kind of steel surfaces exposed to high temperature and corrosion: > **3000H salt spray**

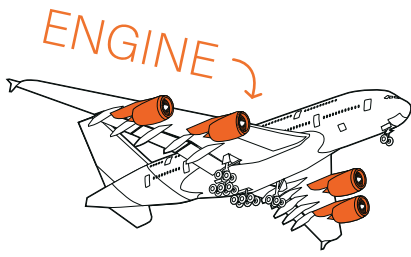

Approvals:

- ➔ MADERBIND 2K* - SAFRAN AIRCRAFT ENGINE - **DMR 74-510** (Non rotating parts only)
- ➔ SOCOGLAZE SPC 0980/0981 CF 1K & MADERBIND 2K - SAFRAN HELICOPTER ENGINE - **CCT 00598** (rotating & non rotating parts)

Worldwide availability ✓

A full range of solutions

Socomore solutions meet the cleaning needs for **cold & hot sections of engine parts** and APUs (Auxiliary Power Units). The aim is to **improve productivity** and the **final finish** of parts while **optimizing operational costs**. Our solutions are based on over **50 years** of experience in speciality chemicals and are approved by engine manufacturers.

Engine maintenance process	Our products**
<p>Degreasing of assembled module ↓ Engine disassembly ↓ Parts degreasing ↓ Paint stripping of engine parts ↓ Descaling / Deoxidation ↓ Non Destructive Testing ↓ Cleaning after NDT ↓ Flash rust protection ↓ Parts repair</p>	<p>SOCOCLEAN UCA/UCS • COMORAL DXP • SYNCLAIR A/C</p> <p>SOCOCLEAN UCA/UCS • COMORAL DXP • SYNCLAIR A/C</p> <p>HDL 202 • KEMSTRIP 600</p> <p>HDL 73W • HDL 2524 • AP 988 • AP 954</p> <p>See our products on www.store.babbco.fr</p> <p>See our products on www.store.babbco.fr</p> <p>CORROTEK</p>
